

Tom Beck, P.E., TxDOT

Tom is originally from Houston, and received a BS from Texas A&M in Geophysics and an MS from UH in Environmental Engineering.

He worked for TxDOT in the 80's in the hydraulics section and left TxDOT to design emission control systems for the chemical industry.

In the 90's, he left Texas on a great adventure to New England to work in the semiconductor industry in Essex Junction Vermont, performing such duties as groundwater remediation, emission systems design and stormwater quality.

In 2003, he returned to Texas and after a brief detour returned to TxDOT to resume working with stormwater. He is a PE in both Texas and Vermont.

Tom Beck, P.E.
Project Manager
Houston District Hydraulics
