

# Sustainable Water Resources Conference

Date & Time: **Tuesday, October 21, 2008 – 9:20 a.m.**

Presentation: **Regional Wastewater Management**

Presenter: **D. Ray Young, P.E.**

Title: **Principal Engineer, WaterEngineers, Inc.**

Education: **B.S. Civil Engineering – University of Texas at Austin, 1970**

**M.S. Environmental Health Engineering – University of Texas at Austin, 1972**

Short description of experience:

**Ray Young has over 36 years of consulting engineering practice dealing mainly with the design of domestic wastewater treatment plants. His experience spans a wide range of wastewater treatment plant capacities ranging from large municipal treatment plants to small individual package plant to on-site sewage facilities.**

Professional or organizational affiliations:

**Licensed Professional Engineer in the State of Texas; Member of WEF, ASCE, TWUA**

Awards or acknowledgements and achievements:

**Ray and his wife Shelley Young, P.E., own and operate WaterEngineers, Inc., a consulting engineering firm specializing in the permitting and design of water supply and wastewater treatment systems. Ray has also been involved in providing design-build water and wastewater solutions to private clients.**

Other items of interest:

**Ray, working with Harris County under a grant from the TWDB, prepared a Water and Wastewater Master Plan for the East Aldine area of Harris County. He continues to work with the East Aldine Management District (EAMD) and Harris County to find ways to provide water and sewer services to the unserved areas of EAMD.**
