

MICHAEL F. BLOOM, P.E., CFM, BCEE, CPSWQ

Mr. Bloom is a Group Manager and an Associate with PBS&J, a national consulting firm with offices across Texas and the United States. Mr. Bloom is a Certified Floodplain Manager, a Board Certified Environmental Engineer by the American Academy of Environmental Engineers, a Certified Professional in Stormwater Quality, and a Registered Professional Engineer in the states of Alabama, Louisiana, Mississippi, New Mexico, Oklahoma, Pennsylvania, and Texas.

Mr. Bloom has 16 years of surface water quality management consulting experience. Mr. Bloom has assisted a variety of federal, state, and local entities with surface water quality management compliance issues including stormwater management program development, total maximum daily load implementation, water quality standards revision and implementation, Clean Water Act permitting, and receiving water studies.

He has recently assisted the Houston Galveston Area Council, the Texas Commission on Environmental Quality, and regional stakeholders in evaluating contact recreation water quality standards and existing uses in an undeveloped watershed in Austin County. He served on the planning committee for the Water Environment Federation's national *TMDL 2007 Specialty Conference*, held this summer in Seattle, Washington. In August, he presented "Bacterial Water Quality Standards and TMDL's: A Primer for Stormwater Dischargers" at Forester Communication's *StormCon 2007*, in Phoenix, Arizona. He may be reached at:
